The novel of the new virus that breaks the heart of the party's heart (with evidence pictures) - Temple of Literature - World Wide Blog - World Wide Reader Network (computer version)

On November 7, 2016, Beijing's Beijing News reported that China has built the world's largest epidemic direct reporting system, and it only takes 4 hours to report the epidemic from the grassroots to the National Center for Disease Control and Prevention. There is no doubt that as early as November or December 2019, after the outbreak of Wuhan pneumonia caused by the novel coronavirus, Beijing had grasped the situation at the first time. However, for at least nearly two months, no corresponding public countermeasures have been taken, and even misled the public and blocked the doctors who discovered the epidemic. As a result, the outbreak of the plague spreads, and the whole world was plagued. Wuhan, a metropolis with a population of more than 10 million, and the population of more than 700 million people who were banned for a few weeks later. At present, more than 130 countries and regions have cut off flights to China or issued a ban on mainlanders. This is the largest wave of "Chinese exclusion" isolation in human history so far, or an unpredictable secondary disaster.

Since the outbreak of the epidemic, all kinds of official and gossip have been emerging, which is dazzling and indistinguishable. In any case, the mainland people openly know that the epidemic is **January 20, 2020.** But the key to the epidemic is: how did the epidemic break out? Where did the virus come from? Since then, all kinds of public opinion have

repeatedly brought the people into countless gutters: the woman who eats bats, the South China Seafood Market, the conspiracy of the United States, the source of Zero or No. 1, the fruit civet, Shi Zhengli, the beautiful director of the virus, Gao Fu, the leader of Wuhan or Hubei, and Chen Quanjiao and Huang Yanling, etc. I can't even count them. If you understand that WeChat is a completely controlled platform and a public opinion-oriented medium, then so many spearheads may be blamed or backed up.

There are also countless videos and pictures on the Internet to support the above arguments. In addition, is the virus natural or artificial? Has it been treated or processed manually? Or is it a natural mutation of a known virus? Is it accidentally leaked, or deliberately released? Is it a biological and chemical weapon, and what is the purpose? These problems are really difficult to distinguish for non-professionals. This article will not discuss these problems, because some truths may be buried forever. However, the reports that have been published by the party media are absolutely true! Whether you love the Party or not, you should take it seriously and study it carefully.

According to the period before and after the outbreak of the epidemic, I published and sorted out several key online party media documents to roughly infer the process of virus manufacturing and leakage. Although it is not direct evidence, if it is false or untrue, it is necessary for the party media to clarify it as soon as possible, right?

军运会航空口岸专用通道开通测试

2019-09-26 07:51:56 来源： 湖北日报

"测试一周来，通关效率提升明显。"9月25日，

武汉天河机场军运会专用通道开通整整一周，机场海关相关负责人介绍，正根据测试结果持续优化通关流程，目前已有赛马、伞具等比赛器材入境。

9月18日，武汉海关联合军运会执委会在武汉天河机场举行以“守国门安全，保军运平安”为主题的应急处置演练活动。演练以实战形式，模拟了旅客通道发现1例行李物品核辐射超标的处置过程，以及机场口岸通道发现1例新型冠状病毒感染的处置全过程，演练了从流行病学调查、医学排查、临时检疫区域设置、隔离留验、病例转送和卫生处理等多个环节。

四名特殊患者“暴露”一支军运会保障力量

2019-11-07 20:51 武汉广播电视台

11月7日，武汉市金银潭医院获悉，在第七届世界军人运动会期间，各个运动赛场周边闪现的白衣天使，是一道道印象深刻的风景线。殊不知，这场成功、完美的国际赛事背后，有一支隐秘的医疗服务保障队在时刻准备着。因任务特殊，责任重大，他们默默守护着来自世界各国人员的健康。

近日，随着两位外籍输入性传染病运动员在武汉市金银潭医院出院，这让本届军运会一支特殊的

近日，随着两位外籍输入性传染病运动员在武汉市金银潭医院出院，这让本届军运会一支特殊的医疗保障队伍浮出了水面。他们就是金银潭医院组建的军运会防治传染病疫情的医疗团队。

据了解，在军运会期间，前后有五名外籍运动员因身患输入性传染病，在比赛期间被送往了武汉市金银潭医院。该院立即启动传染病应急预案，对五名传染病患者展开隔离治疗，提供优质医护服务，不但让国外的运动员和官员们感受到专业、放心的医疗服务，更有效的控制了传染病疫情扩散。

据介绍，为了做好军运会期间各类传染性疾病的医疗服务工作，武汉市金银潭医院储备传染病救治药品77种，传染病防护用品29类，生物恐怖防护用品4类；挑选5位专家作为军运会突发公共卫生应

过了一个月武汉便爆发新冠疫情。

关于实施防控不明原因
肺炎、严控外来人员进校的通知

各访客人员：

经了解，武汉市卫生健康委员会下发了"关于报送不明原因肺炎救治情况的紧急通知"，国家卫健委派专家赴汉指导工作，经求证中部战区总医院情况属实，为做好我校不明原因肺炎相关防疫工作，大学第一时间落实要求，积极相关防控措施，现根据《关于实施防控不明原因肺炎措施的请示》海工供〔2019〕298号文件指示精神要求，对校外来人员严控入校，确需进校者，在报请安管处同意后必须接受门岗体温检测，体温超过38℃者禁止入校。

特此公示！

武汉市卫生健康委员会

关于做好不明原因肺炎救治工作的紧急通知

各有关医疗机构：

根据上级紧急通知，我市部分医疗机构陆续出现不明原因肺炎病人，为有效做好此类病人医疗救治工作，切实保障人民群众健康安全，现就具有类似特点的不明原因肺炎病人救治相关工作要求通知如下：

1、加强责任领导

各级医疗机构要提高责任意识、高度重视相关医疗工作，明确责任领导，确定牵头部门，成立工作专班，统筹协调资源，组织专家小组，妥善作好工作部署，保证诊疗工作有序开展。

2、规范医疗救治

各医疗机构要强化门急诊管理，严格执行首诊负责制，发现不明原因肺炎病人积极调动力量就地救治，不得出现拒诊推诿情况。要有针对性地加强呼吸、感染科、重症医学等多学科专业力量，畅通绿色通道，做好门诊和急诊之间的有效衔接，完善医疗救治应急预案，加强医务人员培训，合理规范诊治。加强院内感染防控工作。

3、严格信息上报

各医疗机构要及时跟踪统计救治情况，并按要求及时向辖区疾控部门上报有关信息，并同时报送市卫健委医政医管处，重大事项及时报送。

未经授权任何单位、个人不得擅自对外发布救治信息。

关于湖北省武汉市华南海鲜市场不明原因发热肺炎疫情的病原学调查报告

国家卫生健康委员会：

我单位（上海市公共卫生临床中心）张永振教授团队与武汉市中心医院、武汉市 CDC 合作，于 2020 年 1 月 5 日从湖北省武汉市华南海鲜市场一名不明原因发热肺炎病人呼吸道灌洗液中检测出类 SARS 冠状病毒，经过高通量测序获得了该病毒的全基因组，序列分析发现该病毒与类 SARS 冠状病毒同源性高达 89.11%，命名为 Wuhan-Hu-1 冠状病毒（WHCV）。由于我们仅有 1 例重症病人的标本，根据我们对该病人及其他病人临床特征等综合分析，造成本次武汉华南海鲜市场不明原因发热肺炎疫情可能是由该新型 Wuhan-Hu-1 冠状病毒引起。鉴于该病毒与造成 SARS 疫情的冠状病毒同源，应是经呼吸道传播，建议在公共场所采取相应的防控措施以及在临床救治中采用抗病毒治疗。

Some netizens released the order of the incident:

James Quan All Media (quan.media) @JamesQUAN10: "On September 18, Wuhan Customs drilled against the virus; on October 1, someone created the virus in P4; on October 27, someone released the virus; the release did not go through the intermediate host; There are two drop-off locations: the first location is the airport departure passage, which should be the U.S. military's hand-held suitcase channel, but the U.S. military's prevention was successful. The second place is Wuhan Seafood Market, which is an man-made source of disaster to blame. The first is a failure, the second is a success, and the people of Wuhan are ruined.

So far, we have not seen the evidence of the above discussion, nor have we seen the specific comments of the U.S. official. However, it can be added that Wuhan Naval Engineering University has been closed at the beginning of the first month, and there must be an uncontrollable epidemic there. At that time, the background was that there was no antidote to the tightness and trade war in Hong Kong. Therefore, Wuhan was blocked on a whim, let alone Zhong Nanshan's "masterpiece".

According to a high-profile report in Beijing, Major General Chen Wei, an anti-bieological weapons expert of the Chinese army, was sent to Wuhan to take over the P4 laboratory. If from September 2019, Wuhan can have a military exercise that "God predicted" that the novel coronavirus is about to break out, and what about with bats, fruit beavers, Zhong Nanshan, Gao Fu, Shi Zhengli, Chen Quanjiao, Huang Yanling, etc.? Yes, the party has commended and rewarded Shi Zhengli and others, but she is only the start of the "ten-man relay race". The sprinter must be very fierce and impatient. He must not know Ms. Shi, who can't argue with the

United States, and doesn't read the instructions or write clearly. He underestimates the great contributions of Dr. Shi and others. It is fortunate that he or she (s) does not have a heroic sacrifice, or "heroic and righteous".
